

Water Dragon

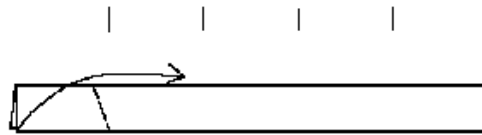

By Perry Bailey

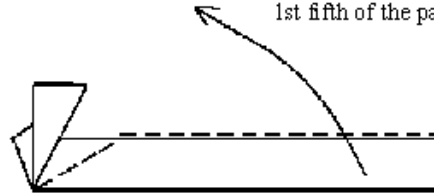

1. Start with a piece of paper 1:5 ratio, then fold it in half length wise.

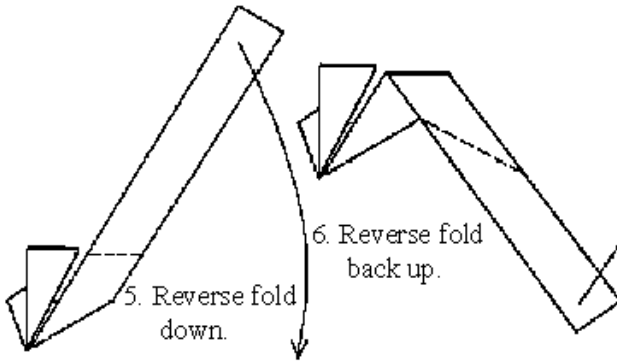

3. valley fold back flaps on both sides.

2. Reverse fold up at the bottom edge of the 1st fifth of the paper.

4. Reverse fold the body up.

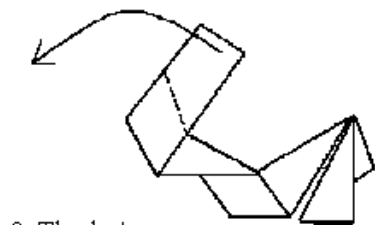

5. Reverse fold down.

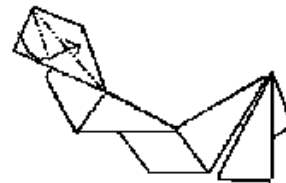

6. Reverse fold back up.

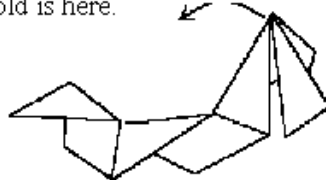

7. Reverse fold down yet again, then turn model 180 degrees.

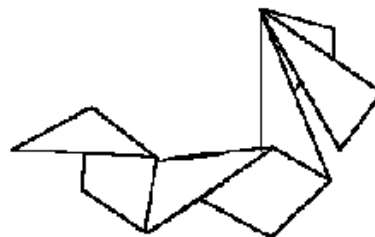

8. The last reverse fold is here.

9. Now to finish the model just mountain fold up the back flaps twice to finish the dragon.

10. To finish the Water Dragon move the head back to a position you find aesthetically pleasing.

11. Done.
