PRESENTAZIONE

Con questo mio nuovo lavoro intendo offrire un supporto utile agli origamisti per la presentazione dei loro lavori, siano esposizioni o tutorials digitali. Infatti, oltre ad offrire le spiegazioni di piegatura, concedo i files in pdf di 3 alfabeti che si potranno adoperare, citandone la fonte, nella stesura di lavori digitali. Nel testo si presentano 4 tipi di alfabeti:

- Nastro alfabetico verticale. È formato da lettere e numeri in stampatello maiuscolo, dotati alla base di alette che vanno inserite in un binario di base. Le lettere, da costruire con fogli monocolori di medio peso, si incastrano in posizione eretta in un robusto binario di lunghezza definibile a piacere.
- Nastro alfabetico orizzontale. È formato da lettere e numeri in stampatello maiuscolo dotati nel retro di alette che vanno inserite in un binario sottostante. Le lettere, da costruire con fogli bicolori leggeri, si incastrano in posizione coricata in un binario di lunghezza definibile a piacere.
- Lettere e numeri in stampatello maiuscolo, da costruire con carta monocolor di medio peso. La forma consente il loro posizionamento sia in posizione eretta che coricata.
- Lettere in stampatello minuscolo. Da costruire con carta leggera o di medio peso, sono utilizzabili solamente in posizione coricata

Settembre 2018

PRESENTACIÓN

Con este nuevo trabajo de origami pretendo ofrecer un recurso a los origamistas para la presentación de sus modelos, ya sea en exposiciones físicas o tutoriales digitales. De hecho además de presentar las explicaciones de cómo doblar, ofrezco archivos pdf de 3 abecedarios que se podrán usar en la elaboración de trabajos digitales.

En este texto presento 4 tipos de abecedarios y números, a saber:

- Cinta Alfabética Vertical: compuesta de letras en imprenta mayúscula y números, con aletas que permiten insertarlos en una base con un carril. Las letras, construidas con papeles monocolor de medio gramaje, se introducen en el carril resistente que se puede alargar según las necesidades. Éstas quedan en posición vertical con respecto al plano horizontal (paradas).
- Cinta Alfabética Horizontal: conformada de letras en imprenta mayúscula y números provistos de aletas en la parte de atrás de tal manera que se puedan encajar en un carril. Las letras dobladas con papel bicolor de poco gramaje, se insertan en el carril quedando “acostadas” y el carril se puede alargar según se desee.
- Letra en imprenta mayúscula y números a realizar con papel de medio gramaje. Su forma permite a ambos de colocarlos en posición vertical u horizontal con respecto al plano de proyección.
- Letras en imprenta minúscula a realizar con papel de bajo o medio gramaje. Se pueden colocar solamente “acostadas”.

MODULI BASE

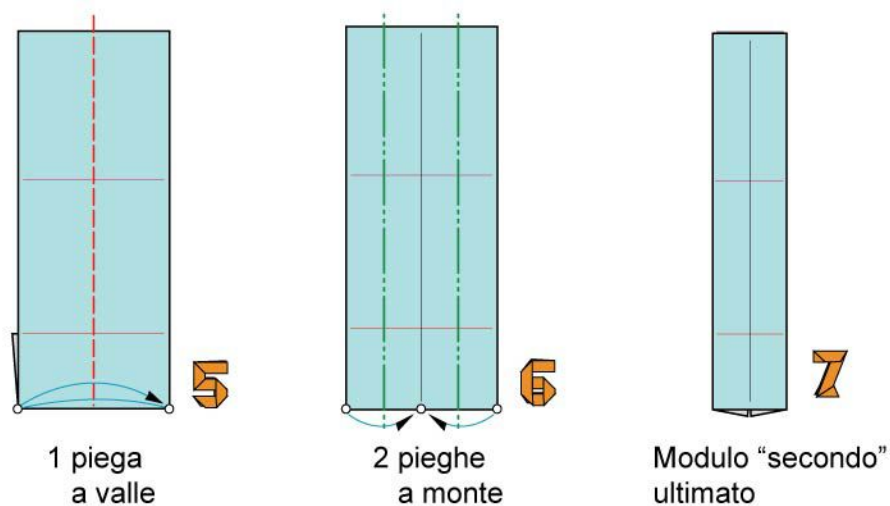

I moduli di riferimento per la costruzione delle lettere, numeri e binario sono 5.

MODULO PRIMO

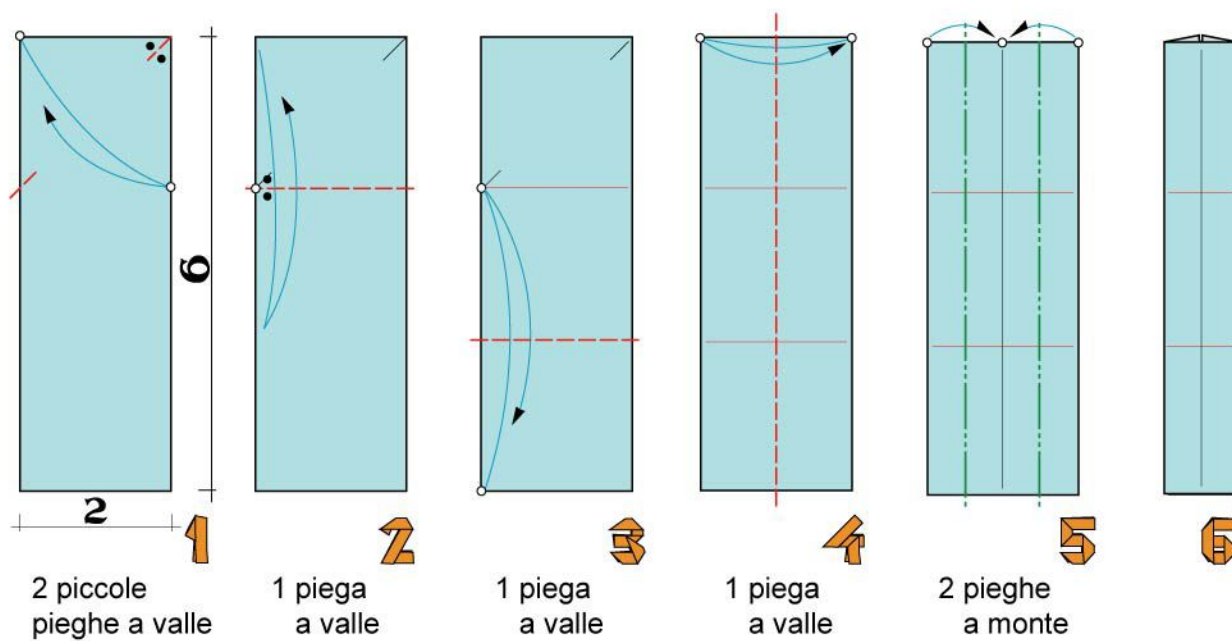

MODULO SECONDO

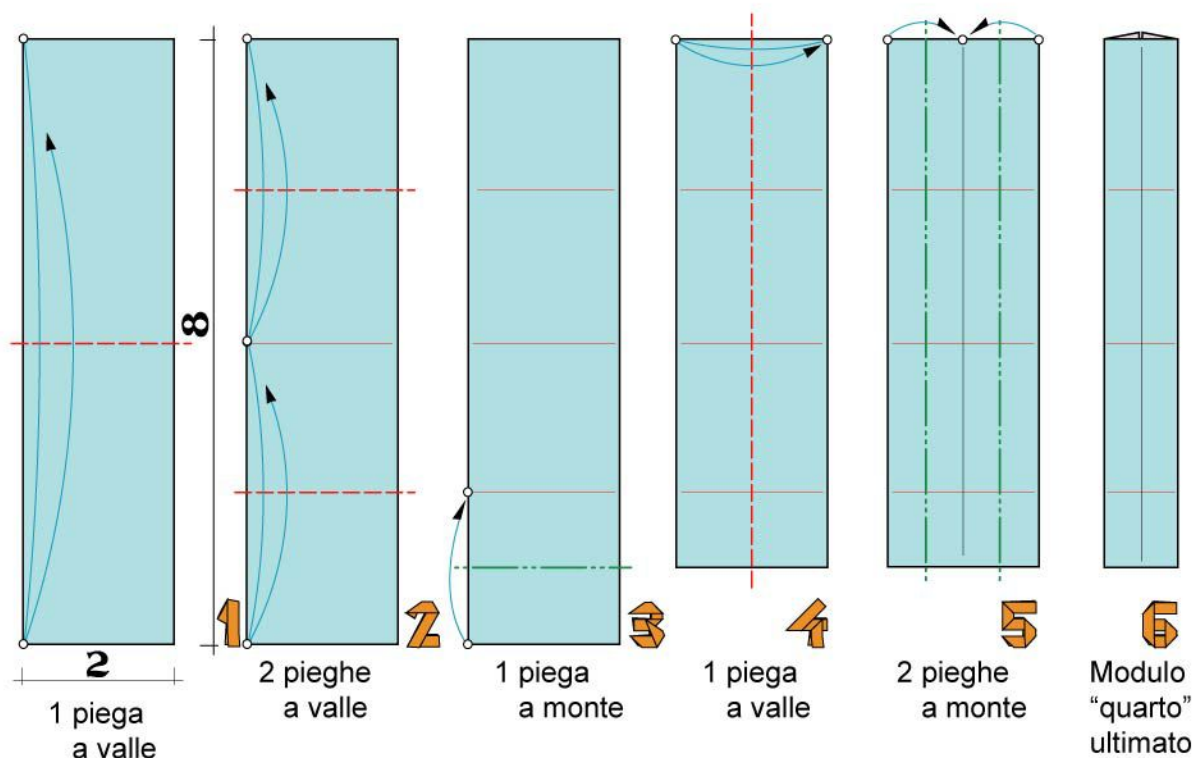

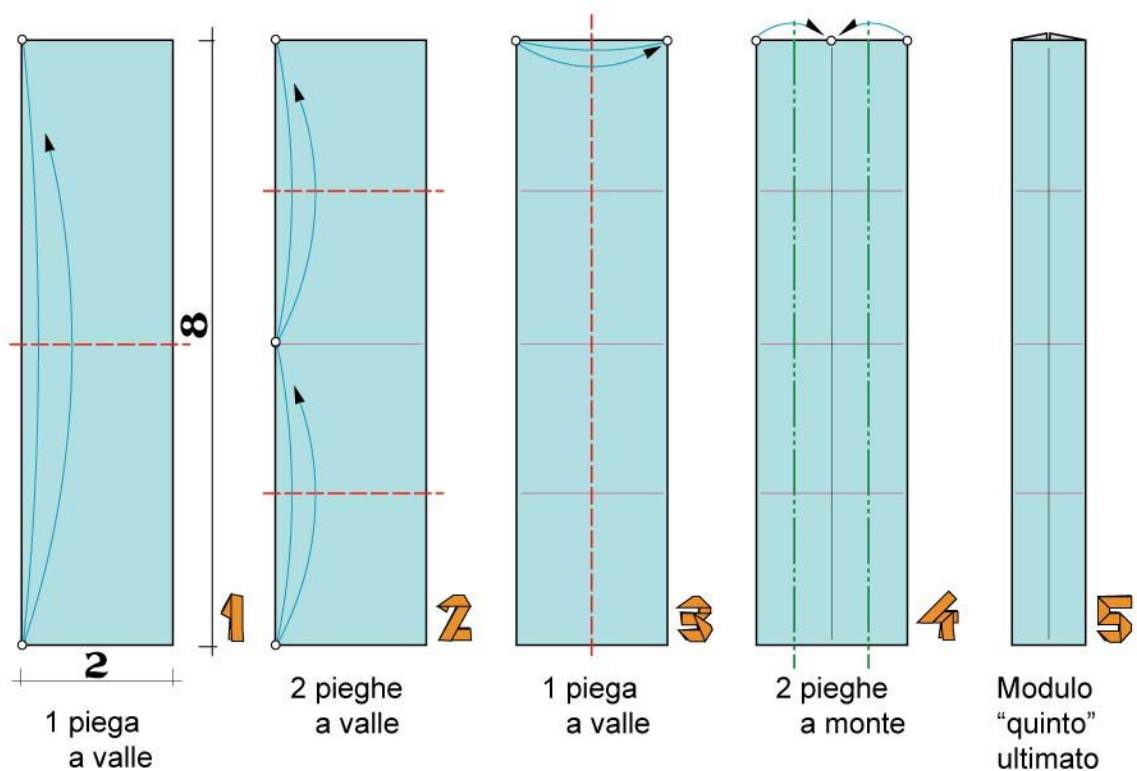

MODULO TERZO

MODULO QUARTO

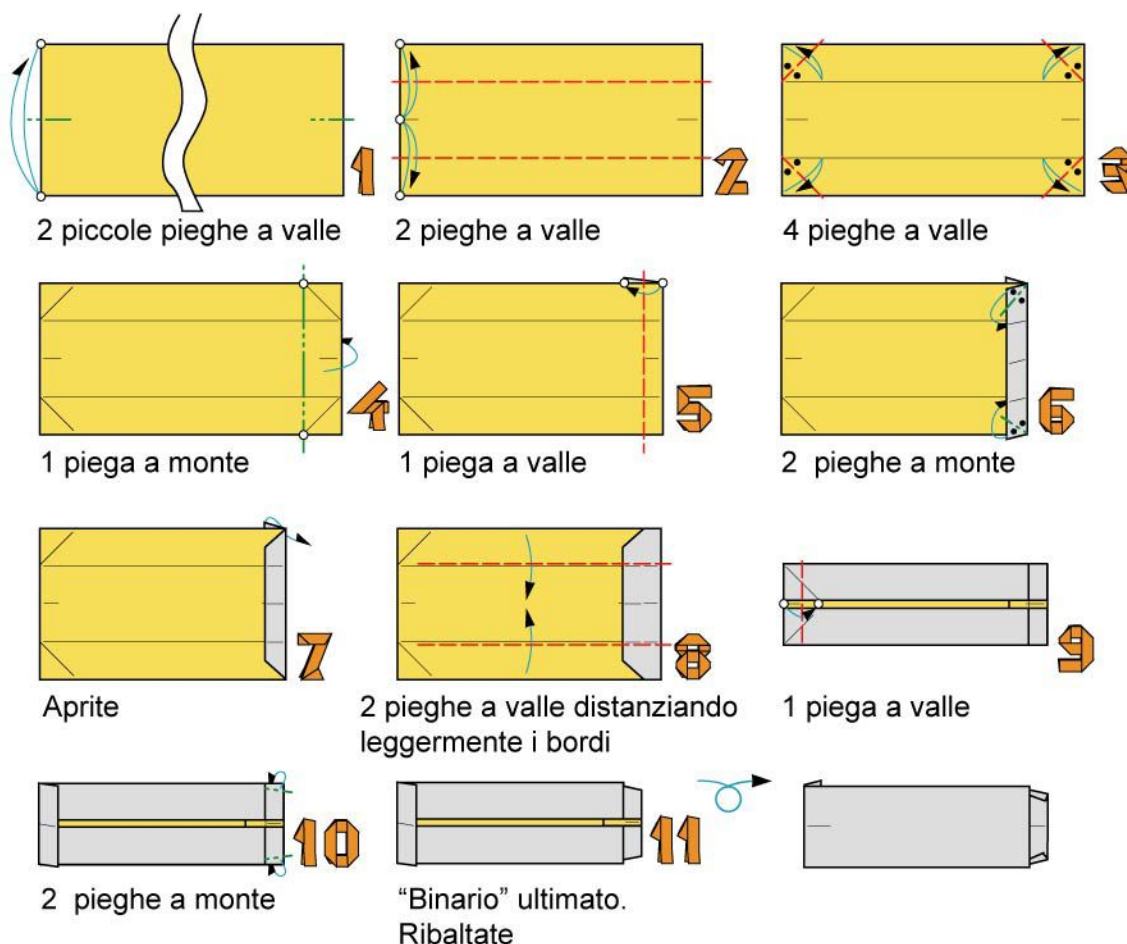

MODULO QUINTO

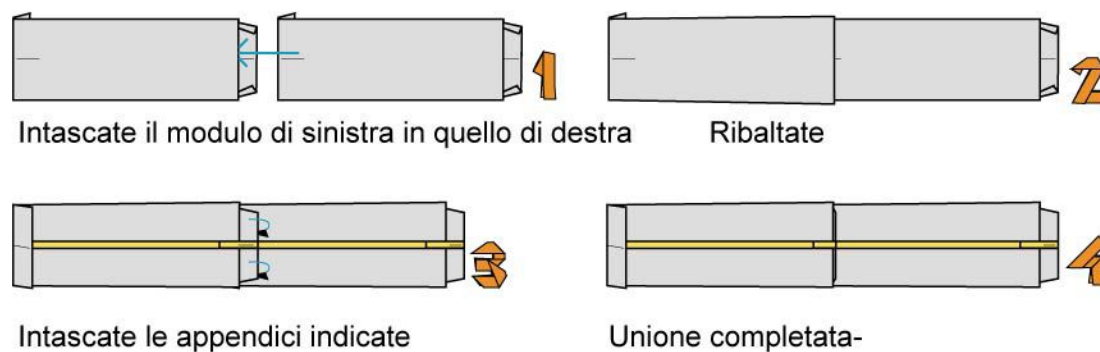

BINARIO

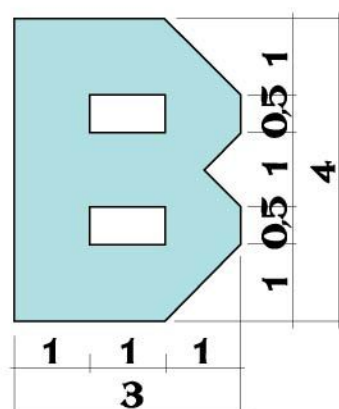

Il binario nel quale inserire le lettere ed i numeri si costruisce utilizzando un modulo della lunghezza giusta per contenere 2 o 3 lettere

UNIONE DI 2 "MODULI BINARIO"

NASTRO ALFABETICO VERTICALE CON LETTERE A STAMPATELLO MAIUSCOLO

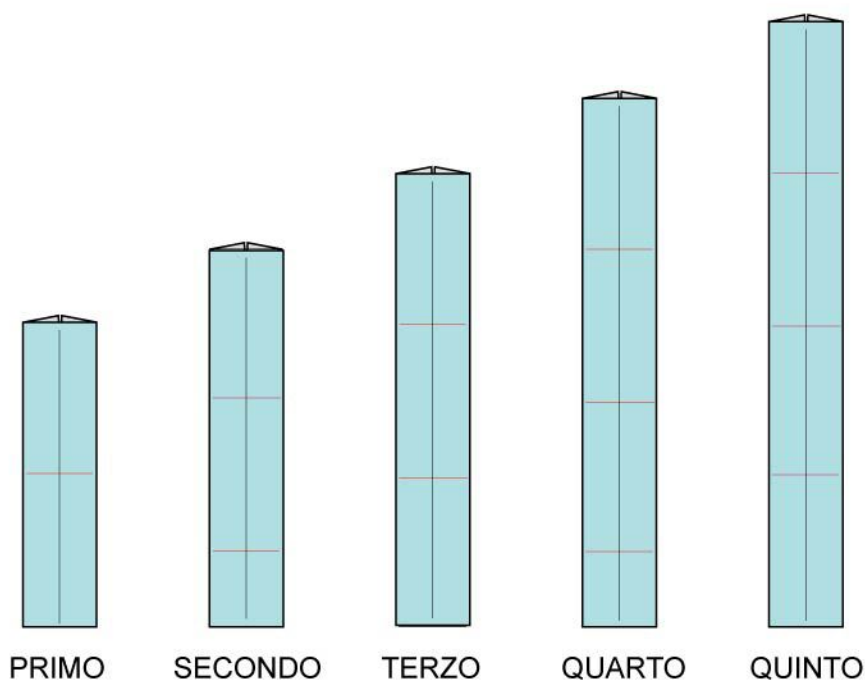

Come rapporto proporzionale, tutte le lettere sono alte 4 e larghe generalmente 3.
I fori sono alti 0,5 o 1 cm.

Tutte le lettere sono fornite alla base di 2 alette che vanno incastrate nel binario.

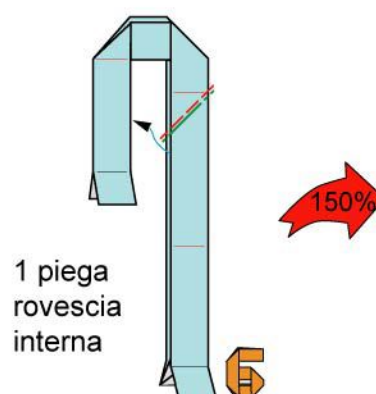

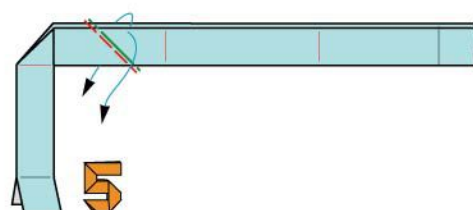

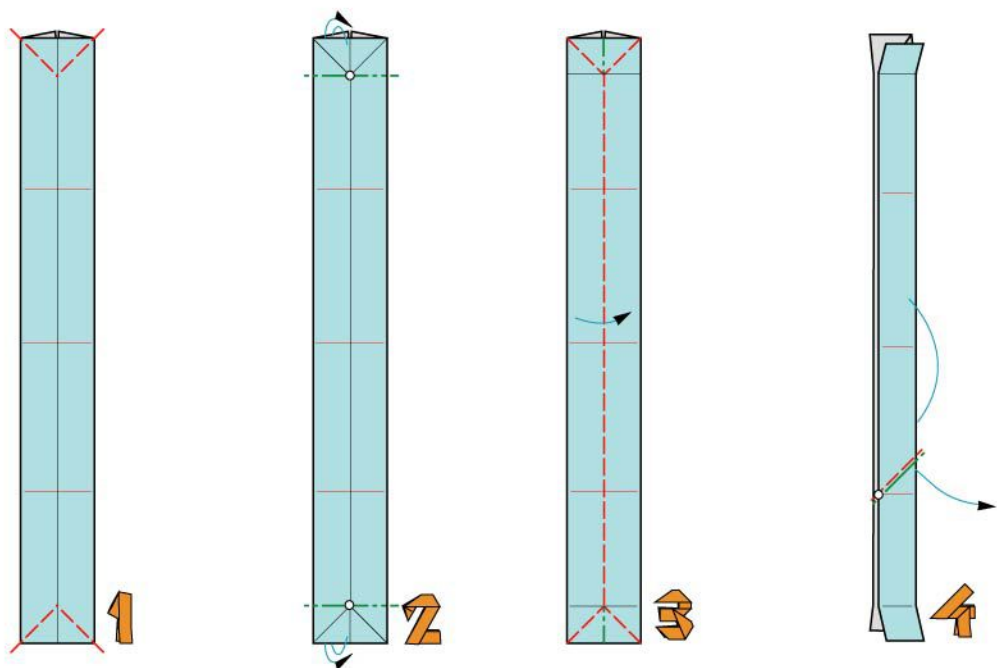

Le lettere ed i numeri di costruiscono partendo dai 5 moduli base

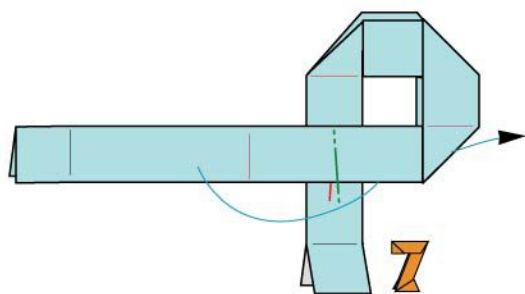

Adoperate carta monocolore di medio peso.
