IL FLEXICUBO di Philip Noble (1971)

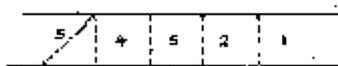

FLEXICUBE BY PHILIP NOBLE

ART I: The basic cube

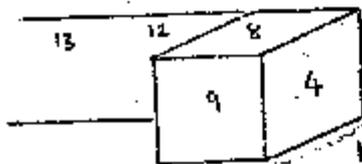

① Start with a length of paper 16x1 (computer paper tape is ideal), and number off squares as shown. Lightly shade one side. Crease the square boundaries and diagonals on 5 and 11.

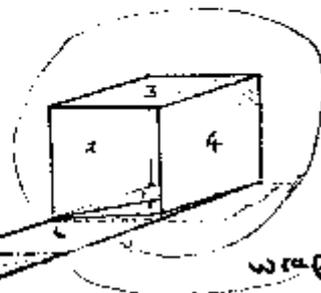

② Form a hollow cube. The valley folds are 90° , the mountain is 180° .

③ 90° mountain fold all inter-square boundaries from 5/6 (180°) to 10/11 and form diagonal in 11.

CONGRATULATIONS

Make many of them and make many people happy
or even better, teach them how to do it.

Thoki Yenn

Grazie per aver piegato, giocato e
ragionato insieme a noi!
